

Date	Hours	Description of Work		Name	Week #	Total Hours
June 7	3.5	Design document presentation		Josh Henderson	4	15.5
June 10	3	Began working with PHP to start to learn how to work with it on my computer. Group meeting where we discussed what needed to be done for the database and worked to try and get VS Code to work with PHP and the Live Share feature.				
June 11	2	Continued to work on understanding VS Code and PHP. Started a document that will contain all of the necessary queries that we will be performing on the database for each page.				
June 13	7	Added the remaining queries to the database query document, worked on PM documents, added features and updated our Trello.
