Hey Angie,

We are looking into mailchimp and are just wondering what the process to use it is on your end. Is there an API that they provide or do we simply generate a list of emails for you guys to send newsletters out to?

Thanks,
Everton

Also if you are free for a meeting Friday sometime after 930 let us know, we would love to go over a couple minor things before testing starts.

Hey Everton!

How about we meet Friday at 10am? And let me look into the MailChimp thing and get back to you. I'm pretty sure that there's a bit of script that can be used

Cheers,
Angie
