Date	Hours	Description of Work		Name	Week #	Total Hours
June 14	1.5	Meeting. Setting up my local mysql		Josh Henderson	5	16
June 17	6	Researched API creation for php with out database. Worked with Trevor to get a local database setup working with mock entries in the tables. Began testing the queries on the local database.				
June 19	6	Continued testing of the local database. Started trying to work on pages by linking my apache server to my local database. Things didn't work. I spent a majority of the time trying to get things to connect.				
June 20	2.5	Continued to try and get mysql and my local server to work and finally managed to get it working.
